Chancellor's Update

October
2016

Signs & Wonder

Over the past year we have been presenting information from articles, sermons and current events that are all signs and wonder of what is to come. In the January Update, we covered St. Bernard's sermon on the feast of the Holy Family. In February we covered the magnificent sermon of Septuagesima Sunday on the parable of the vineyard. In March we covered Understanding Papal Infallibility. In April we covered the machinations of Globalists and Internationalists. In May, we covered the nomination of Mr. Trump as compared to Napoleon's rise, and the world events and the chaos caused by Church officials not doing their job. In June we covered the forgotten virtue of Prudence, which is causing enormous damage to our country and our culture. In July, we covered the admonitions of Popes St. John Paul II and Benedict XVI. In August, we covered the Church Fathers and the Anti-Christ. In September we covered the canonization of St. Mother Teresa of Calcutta and her advice or warning to world leaders at the Fourth World Conference on Women in Beijing. This month we conclude our survey of Signs and Wonder by presenting a picture of what might happen in the world in 2017. Please go back and reread the Updates for this year, so that this Update will make more sense to you.

The following is taken from Fr. John Zuhlsdorf posted on 21 August 2016.

“And there shall be signs in the sun, and in the moon, and in the stars” (Luke 21:25).

At [NASA](#) I see that, one year from today, the vigil of the Immaculate Heart of Mary, 21 August 2017, the shadow of your planet's moon, in a great total eclipse of your planet's yellow sun, will sweep across the North American continent. 200 million people will be within one day's drive from the umbra of totality.

“What is interesting about this, the eclipse occurs **54 days**, including the end date, before the 100th anniversary of the Miracle of the Sun at Fatima, 13 October 2017. The “54 days” will immediately strike Catholics as significant for it is the number of days of a special kind of “novena”.

Fr. John Zuhlsdorf continues: “I've been hearing some dire things from priests. I've been experiencing some rough times as well. I have the sense that something big is on the move, as it were.

“I am not at this point saying that I think the 2017 eclipse portends a SHTF (s..t hits the fan) catalyst and TEOTWAWKI (The end of the world as we know it) event. I am saying

Jerusalem 1048-1291, Cyprus 1291-1310, Rhodes 1311-1523, Malta 1530-1798, Russia 1798-1907, U.S.A. 1908-

that it is *really interesting* that this takes place, over this nation, 54 days before the 100th anniversary of the Miracle of the Sun. Just as I think that the argument about the [Star of Bethlehem and the eclipse at the time of the Crucifixion](#) was compelling enough to pay attention to our celestial clock, I think this merits keeping an eye on.

“Pope Leo XIII on 13 October 1884 had a mystical experience after reading his daily Mass. He froze, turned pale, and immediately penned the Prayer to St. Michael. He told people that he heard two voices, one Satan's, the other God's. Satan said that he could destroy the Church in 100 years. However, some have calculated that the 100 years didn't begin at that very moment. Instead it started 33 years later on 13 October 1917 with the Miracle of the Sun. The opening salvo of Satan's pogrom *could* have been on what was 7 November 1917 in the Gregorian calendar (25 October in the Julian) the October Revolution in St. Petersburg. Russia would switch to the Gregorian calendar in February 2018. (Interestingly enough, in these USA on 19 March 1918 time zones and daylight savings time were approved, which went into effect on 31 March. Lots of tinkering with time back then.) In any event, atheistic Communism – an ideology direct from Hell – begins to rear its head like the dragon of Revelation 12 right after Fatima. Our Lady warned the children that Russia would spread errors throughout the world.

“If the 100 years of Pope Leo's vision began on 13 October 1917....

“Another sky event linked to Fatima, was probably the incredible aurora that occurred on 25 January 1938. Our Lady of Fatima had said on 13 July 1917: “When you shall see a night illuminated by an unknown light, know that it is the great sign that God gives you that He is going to punish the world for its crimes by means of war, of hunger, and of persecution of the Church and of the Holy Father.” This seems to have heralded WWII. That same night St. Faustina Kowalska wrote in her diary about a message from the Lord: “I saw the anger of God hanging heavy over Poland. And now I see that if God were to visit our country with the greatest chastisements that would still be great mercy because, for such grave transgressions, He could punish us with eternal annihilation. I was paralyzed with fear when the Lord lifted the veil a little for me. Now I see clearly that chosen souls keep the world in existence to fulfill the measure [of justice].

“Events in the sky seemed important to Our Lady.”

“I'm just saying.”“
